Mid columbia bus company pendleton

A positive working environment and support managementThe availability of a school bus is a stressful work, which is greatly reduced by a supportive and helpful director. No concerns have been glossed over or swept aside. The training is incredibly comprehensive and they can always answer questions. Buses are well maintained and problems are solved as quickly as possible. It's part-time work, they guarantee 20 hours a week, but provides many opportunities for more by offering outdoor trips and other school events, as well as occasional charters. First of all, children and their safety are always #1 priority, and this is a show. It's a great place to drive. Fair wages, good governance, beautiful people, positive environment, vision and dental insurance, accumulated PTOOccasional unruly children, benefits could be betterit this review useful? Good people, sense of purpose I've worked here for nine years. I've seen a lot of changes and lots of new faces. And I've had the same route for many years. I know the children, their personalities, what they need to meet their special needs, and I know their parents. And I watch them grow a little more every year. It's a good feeling to be a part of their lives. The kids are doing my day. High degree of self-sufficiency. Was this review helpful? Great job giving your communitySuoo great job if you want to work with a great team dedicated to safely transporting students to your city! A small company feels and family-oriented. I felt supported by my management team and excited about my work. Pay is not great, but the team and environment I have not found anywhere else! Great People Great Kids! Excellent if you want to make a difference in the life of a child. Was this review helpful? Good work with good people in many positionsit was a pleasant job, a little chaotic sometimes with a poor schedule (split shift and part-time) that feels some getting used to. Other drivers on the road are the biggest stress. But children can make it quite worth it. Was this review helpful? I loved being a school bus driver. It was one of my most satisfying jobs. Children are great and coworkers are great. The only issue with this job is most of your time just part-time, making it almost impossible to live. Was this review helpful? Enjoyed working in central Colombia. It's easy to get together with your coworkers. Reliable dispatcher and mechanics. Always inform employees about changes and laws. Was this review helpful? Flexible work for good people to work with. Fewer hours more hours for employees are more hours. Routes correspond to hours. Trips can be obtained for more hours. Was this review helpful? There was no respect in this company. Bus drivers are treated like dirt and parents are always right, even if it is on the lane and can be proven otherwise. I don't recommend this by any means. I have a peanut allergy senior driver was allowed to come after their am route and make and eat peanut butter toast before leaving and I had to stay in the middle of the day running. I was told if I didn't like it, or it was making me ill to go on my bus and wait there, but they wouldn't stop this driver being deliberately malicious. The company is cutting your throat, rejecting drivers' needs, and a very big stress.no one will give respect and the more you do the more you walkedS at this time this review is useful? Is it really your favorite place to learn about companies? This would be a good job for pensioners who want to have some extra money to supplement social security. Poor choice for those who have to provide income to live or support themselves and familyWas this review useful? I would like to work for another school bus company instead. The top management didn't like smaller seats. The manager is not treated well. Workers are not evaluated, safety issues with buses and some drivers should not drive a school bus due to safety concerns and numerous accidents. Morality is terrible. Was this review helpful? For the most part it's a good place to work if you have a second income to help all year round. Because in the summer months it's tuff. I can't speak for all the places, but the north bend one is a great place for office staff and the manager is great. My co-workers are also very big. On weekends and public holidays. Its relaxed as long as you follow all the safety rules. It's not enough hours, no insurance, . No perks like shirts or jackets with the company logo, no monthly employee. Was this review helpful? Middle Co. has a new management that makes a great .. in my opinion, it seems to be getting better and better.. focus on work to get the place improved rather than hard work.. school bus is useful, difficult, easy and worth trying ... Middle Co. InDallas is not a bad place to work. Was this review helpful? The company treats you very honestly, and compensates you fairly. I liked my co-workers, and the regional vice president was great at working. The company is small, so beautiful as wellWhen soWhat is this image useful? It can be interesting, but also stressfulThi have to clean the bus yourself inside and outside. You also have to curate the bus yourself. The good thing about fueling is that there is a feeling of the station and the laundry station on site and is quite easy to do. They also have their own mechanic in place, which is awesome and quite quick and proficient in identifying everything you need with the buses. Great people work and can give a lot of great advice when you need it.you're off every weekend and every school vacation you off for every summerThis this review is helpful? Everyone we had very nice in my experience with them was great, but some if the requirements I had been hard with. They teach you how to load strollers and bus seats for young children and the training is extensive. Was this review helpful? No benefits, but good people not enough to follow with promised options. What guests liked the most: Great special needs trainingIt's this review useful? Great and supportive collaborators. The staff were very friendly and helpful. Split shifts to take care of family needs. Negative and unsupported management. Buses broke down regularly. Low pay for a lot of responsibility. Was this review helpful? Management has no idea what they are doing. Never paid on time. Great collaborators. Split move up super early work for 2-3 hours, then turn off until 2:30 and then work 2-3 hours. Not worth it, in my opinion. Coworkers are beautiful and usefulManage is incompetent. Would you like to reimburse or pay people in timeSome this review is useful?
